INTRODUCTION TO THE WORLD CLASS PROGRAMME

1. OVERVIEW

- 1.1. The World Class Programme (“WCP”) is a UK Sport National Lottery & Exchequer-invested initiative which aims to identify, develop and support talented athletes towards global medal success at the 2028 LA Paralympic Games and beyond.
- 1.2. UK Athletics receives a finite investment award to deliver the WCP which it allocates at its discretion to maximise the potential of athletes most likely to fulfil the aims of the programme.
- 1.3. This document explains the purpose of the WCP, what it means to be a member and sets out the policy for athlete selection.
- 1.4. UK Athletics must be confident that any athlete selected has the realistic potential to make the progress that is required to achieve a medal in the 2028 LA Paralympic Games or 2032 Brisbane Paralympic Games.
- 1.5. Membership of the WCP provides access to a range of performance support and services that add value to athletes’ progress and performance. Athletes are also eligible to receive a financial contribution (Athlete Personal Award or ‘APA’) directly from UK Sport to support towards the living/training costs associated with being a high-performance athlete. The value of APAs is tiered, based on level of programme membership.

2. PROGRAMME PLACES

- 2.1. 45 places are allocated to the Athletics Paralympic World Class Programme.
- 2.2. There is no obligation to fill every available place on the WCP, nor to select athletes for every event or classification in the athletics programme.
- 2.3. UK Athletics may prioritise athletes/events based on realistic potential to make the progress needed to achieve medal success in the 2028 LA Paralympic Games. There may also be more athletes who fulfil all eligibility and selection criteria than there are places on the WCP. Thus, even if an athlete fulfils all eligibility and selection criteria, that athlete may not achieve a WCP place.
- 2.4. All selections for the WCP are subject to ratification by UK Sport.

3. WCP INVESTMENT – TIERED FRAMEWORK

- 3.1. The Podium tier supports medallists at the World Para Athletics Championships¹ and/or Paralympic Games whose profile indicates they have strong potential to deliver a medal winning performance(s) at the LA Paralympic Games. Paris 2024 Paralympic Gold medallists and Silver/Bronze medallists can, in principle, remain eligible to receive a Podium A or Podium B grade respectively for up to a maximum of four years until the end of the cycle, providing their performance profile remains on track to medal at the 2028 Paralympic Games. Athletes on Podium grade by virtue of a performance at the 2025 World Para Athletics Championships can remain eligible for a maximum of two years, providing their performance profile demonstrates a trajectory to medal success at the 2028 Paralympic Games.

¹ All references herein to World Para Athletics Championships are to Senior Para World Athletics Championships unless stated otherwise.

- 3.2. The Podium Potential tier supports athletes identified as having the potential to medal at future Paralympic Games. Athletes at this tier may already be competing at senior international level, including at the World Para Athletics Championships and/or the Paralympic Games, or may be progressing towards that level. This tier is designed to help these athletes continue to develop and lay the foundation for future Paralympic podium success.
- 3.3. The Confirmation tier supports athletes in developing the necessary attributes for progression to Podium Potential within 1-2 years, aiming for future medal success at World Para Athletics Championships and the Paralympic Games. It is a focused programme for athletes showing potential, confirming their capabilities to ultimately reach the Podium tier.
- 3.4. More detailed information on the programme tiers and relevant performance criteria can be found in the Selection Criteria & Performance Standards section.

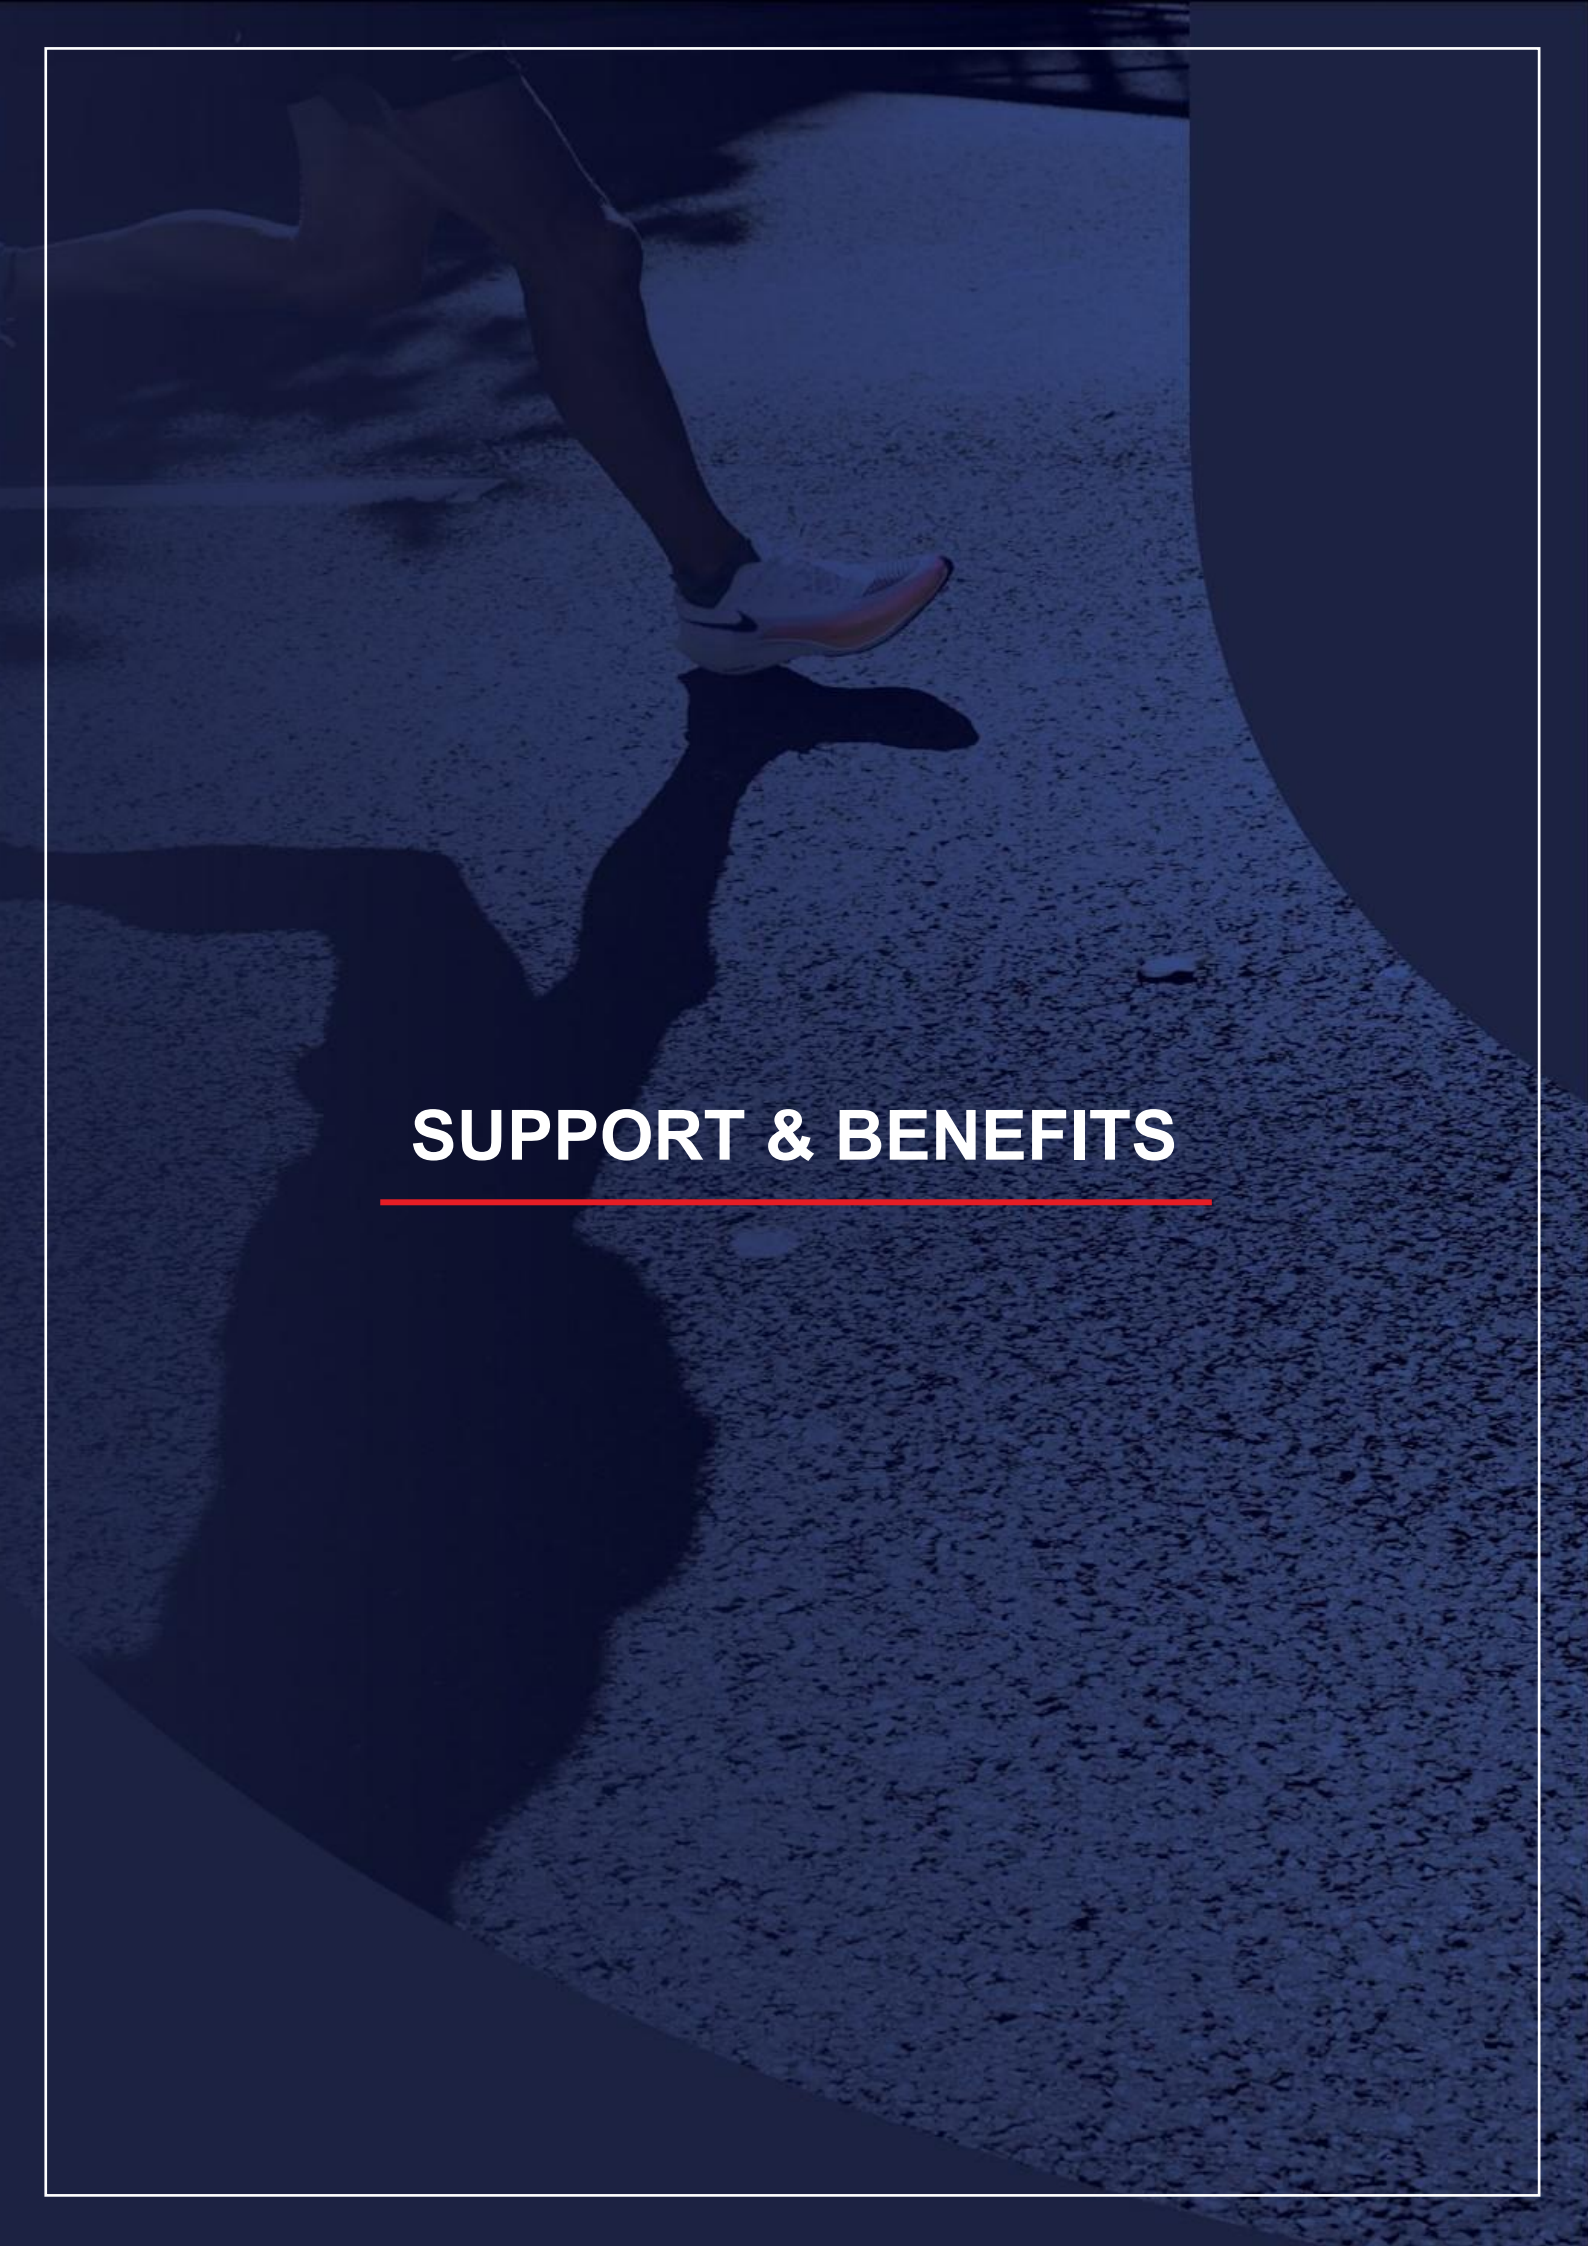

4. WCP INVESTMENT PRINCIPLES

- 4.1. Any athlete considered for investment will have demonstrated they are either capable of bridging the gap to future medal success or are on a continued trajectory if they have already medalled at the Paralympic Games or World Para Athletics Championships.
- 4.2. Inclusion in the programme requires a commitment to relevant WCP activity and regular engagement between the athlete, their coach and WCP staff and Engagement Leads. Athletes must agree with all terms in the Athlete Agreement and any other specific conditions outlined in their WCP offer letter. If athletes require explanation or clarification on any of the terms in the Athlete Agreement, they should contact Tina Ryan, Deputy Performance Director - Operations (tryan@uka.org.uk).
- 4.3. The WCP Selection Panel may set conditions and targets for an athlete on the WCP. In such cases, they will be set out in the athlete offer letter. In some circumstances, conditions may need to be met by a particular point during the season in order for membership to continue for the remainder of the current WCP year. If a WCP athlete had conditions for the 2025/26 season, they must be met in order to be considered for 2026/27 programme retention in line with these Investment Guidelines.
- 4.4. Athletes selected for the WCP will be required to complete the medical health questionnaire and a cardiac screen as a condition of membership. Failure to complete either of these assessments may result in an athlete's offer of WCP membership being withdrawn or their continued membership being reviewed.
- 4.5. Athletes who receive an offer letter are not obliged to accept WCP membership. For athletes who accept or who are considering accepting an offer of WCP membership, UK Athletics will provide an induction covering what WCP membership involves, how the WCP works with the athlete and their coach, and the shared expectations that come with being part of the WCP. At this time, athletes should consider whether they wish to fully commit to the programme. If an athlete declines WCP membership, it will not affect their ability or eligibility to be selected for future World Class Programmes or international championships.
- 4.6. Podium Potential and Confirmation athletes will be required to attend event-group engagement and monitoring days at agreed time points throughout the programme year. These days are designed to provide athletes and coaches with relevant insight into their individual plans and their technical and physical goals. Athletes and their coaches will have the opportunity to meet

with their Event or Engagement Leads to discuss their plans, access biomechanical and performance analysis, and receive additional support where appropriate, such as strength diagnostics, medical and health assessments and screening, nutrition, physiology, performance lifestyle and psychology.

- 4.7. The 2026/27 WCP Induction process will be held during the window 23 November and 4 December 2026 at Loughborough University. Those athletes new to the WCP, who have been on the programme for less than two years at Podium Potential or Confirmation level, or who have moved up a level, must attend the induction. By exception, if an athlete is unable to attend, they must get prior written agreement from the WCP. The athlete will then need to go through key areas with their Engagement Lead and may be required to attend Loughborough University on another date to complete other areas of the induction process.
- 4.8. An athlete's inclusion in the WCP and their APA level will be reviewed annually in line with the terms of the WCP selection policy. Membership of the WCP in one year does not guarantee membership or an APA in subsequent years.
- 4.9. Nominations for membership where an athlete has been identified as being part of a relay team will be conditional on the athlete and their coach having fully committed to the training and competition schedule by signing the UK Athletics Relay Plan.
- 4.10. UK Athletics may decline to select an athlete or remove an athlete from the WCP if the athlete associates with a coach or other support personnel who UK Athletics, in its sole discretion, considers does not meet the standards or behaviour and ethics required or if association will or has the potential to bring UK Athletics and/or the athlete into disrepute.

SUPPORT & BENEFITS

5. WCP SUPPORT SERVICES

- 5.1. Inclusion in the WCP requires a commitment to relevant WCP activity and regular engagement with WCP Engagement Leads and other WCP staff. Performance and process goals, training focus, priorities and plans will be discussed as part of Individual Athlete Planning (IAP). This process enables athletes/coaches and the WCP to identify where support can add value to individual progression. Athletes will have access to the support areas detailed below, as agreed with the WCP and aligned to their IAP. Support will be aligned to the level of WCP membership, individual requirements identified in collaboration with WCP staff, performance priorities and training location:
 - a. Training and competition support based on IAP and objectives agreed between the athlete and WCP staff.
 - b. Performance monitoring (to include testing and screening), based on WCP level (bespoke for Podium and structured set days that are strongly advised for Podium Potential and Confirmation).
 - c. Performance support services. Provision is tiered and identified based on individual requirements, event group and WCP tier. The range of performance support that the WCP may provide includes athlete medical and therapy services, nutrition, strength & conditioning, biomechanics, physiology, performance analysis, performance psychology.
 - d. Performance Lifestyle Support, which includes education and career development guidance, financial advice, wellbeing support and specific lifestyle coaching and mentoring.
 - e. The UK Sport Athlete Medical Scheme. Medical insurance provision that ensures access to physical and mental health medical specialists, investigations and treatment. Referral is via UK Athletics WCP medical staff.
 - f. Eligibility to apply for a Personal Development Award, designed to support an athlete's future transition to a career beyond sport.
 - g. A designated WCP Engagement Lead.
 - h. An Athlete Performance Award (APA) aligned to the WCP tiered framework. APAs are administered by UK Sport and are subject to UK Sport means testing – further details can be found in section 6 below.
- 5.2. All support offered to athletes as part of membership of the WCP is subject to change at the discretion of UK Athletics.
- 5.3. Not all support outlined in paragraph 5.1 will be available to those athletes on the WCP who choose to train abroad.
- 5.4. For 5.1.e, the UK Sport Athlete Medical Scheme (AMS), provided through BUPA, covers injury and illness within the United Kingdom only and does not extend to medical treatment required overseas. Athletes who are resident outside of the United Kingdom, or who train or compete overseas, must arrange their own comprehensive international medical insurance for the duration of such periods. Such cover must be sufficient to provide access to the standard of medical treatment and diagnostic services commensurate with elite athlete requirements,

including but not limited to MRI scanning and specialist medical intervention. UK Athletics shall bear no responsibility for medical costs incurred outside the scope of the AMS.

- 5.5. Athletes selected for WCP membership will have access to the British Elite Athletes Association for independent guidance and support if required - <https://britisheliteathletes.org>

6. ATHLETE PERFORMANCE AWARDS (APAs)

- 6.1. Athlete Performance Awards (APA) are a financial contribution administered by UK Sport to WCP athletes. They are a financial contribution designed to support living and sporting costs incurred whilst training and competing as an elite athlete. 2026/27 awards are offered for a maximum of 12 months and are subject to the UK Sport Athlete Performance Awards' Terms and Conditions.
- 6.2. General information about APAs is available on the UK Sport website – [\[https://www.uksport.gov.uk/our-work/investing-in-sport/how-uk-sport-funding-works\]](https://www.uksport.gov.uk/our-work/investing-in-sport/how-uk-sport-funding-works).
- 6.3. For events where a guide is required for a visually impaired athlete selected for the World Class Programme, the guide may be eligible to receive an APA. This will be considered on a case-by-case basis and at the sole discretion of the Panel, in conjunction with UK Sport. In these cases, the Panel will consider the commitment required to the high-performance programme and the cost of their involvement when making their decision.
- 6.4. The WCP will recommend to athletes who receive an APA that they use some of the award towards specific, optional WCP activities, support and services or recommended technology/equipment.
- 6.5. WCP warm weather training camp provision is available to athletes. The extent of any financial contribution required from the athlete will be determined by their programme level and individual circumstances as outlined below:
- a. Podium athletes can attend one UKA camp, fully funded by the WCP (the duration will be determined by the WCP).
 - b. Podium Potential athletes can attend one UKA camp, fully funded for up to 2 weeks. Athletes can extend their training time in camp by self-funding additional weeks, subject to agreement with the Head of Paralympic Performance.
 - c. Confirmation athletes will have the option to self-fund one WCP warm weather training camp.
- 6.6. Further details on any optional programme activities that might require an athlete self-funding or a contribution will be provided at the start of the programme year.

MEANS TESTING

- 6.7. UK Sport administers all APAs centrally and applies means testing to ensure it only targets resources where there is evidence of financial need. Means testing will apply to athletes whose total income (including the APA) exceeds £65,000 per annum. Where this is the case, awards will be reduced pound (£) for pound (£) above the £65,000 threshold.
- 6.8. Where an athlete's income is declared as over £35,000 per annum (excluding the APA), they will be required to provide further evidence to UK Sport of this income.

- 6.9. It is the athlete's responsibility to provide UK Sport with accurate information on income. If inaccurate information is provided, it may lead to the APA being withdrawn.
- 6.10. Athletes are required to manage their personal taxation, national insurance and pension (if any) and it is recommended that athletes receiving APAs seek appropriate expert advice from an accountant or financial advisor. Further information and assistance can be accessed via the British Elite Athletes Association. <https://britisheliteathletes.org>
- 6.11. WCP Athletes who do not receive an APA following means testing are still required to sign the World Class Programme Athlete Agreement.

STATE BENEFITS

- 6.12. Podium level athletes in receipt of means-tested benefits from the Department of Work and Pensions will receive a reduced APA to enable them to continue receiving the benefits they are entitled to.
- 6.13. Athletes who are eligible for government benefits are encouraged to apply for these prior to completing the APA application form as this will help accurately reflect household income.

ATHLETES UNDER 18 YEARS OF AGE

- 6.14. Athletes aged between 16 and 18 years old can decide whether their APA is paid into their own bank account or to a nominated individual (e.g. parent/guardian). Athletes under the age of 16 years old must have their APA paid into their parent/guardian's account.

SELECTION CRITERIA & PERFORMANCE STANDARDS

7. ATHLETE ELIGIBILITY

- 7.1. All athletes (including 2025/26 WCP athletes) must comply with the Eligibility Criteria set out in Appendix 1 to be considered for selection.
- 7.2. Athletes currently on the 2025/26 World Class Programme will be considered first for selection for membership of the 2026/27 WCP.

8. CLASSIFICATION

- 8.1. An athlete's inclusion on the WCP is subject to having, as a minimum, an IPC Review Level classification that is underpinned by a medically diagnosed impairment that causes permanent and verifiable activity limitation AND subject to the WCP Paralympic Lead Doctor (or designated medical representative) being satisfied with the medical diagnosis underpinning their classification (as described in Appendix 1 – 1e). This requirement applies to athletes with a physical, visual or intellectual impairment. The following provisions shall apply in any assessment of medical diagnosis:
 - a. It is the athlete's responsibility to obtain and provide documentary evidence of the diagnosis to show the athlete meets the requirement in paragraph 1e of Appendix 1.
 - b. The athlete may need to supply further evidence (at their own cost) if requested by the WCP Paralympic Lead Doctor.
 - c. All documentary evidence submitted in support of the medical diagnosis must be in English, dated and signed by the registered medical professional who provided the diagnosis.
- 8.2. If an athlete's classification is reviewed by an International Classification Panel and, they no longer satisfy the Eligibility Criteria, their WCP membership will no longer be valid. In these circumstances a one-month notice period will be given and conditions relating to transitional funding found in [Appendix 5](#) will apply.
- 8.3. If an athlete's classification is changed, their APA tier and continued WCP membership may need to be reviewed by the WCP Selection Panel. In these cases, following its assessment, the Selection Panel may recommend a change in funding level or cease programme membership, subject to UK Sport approval. In these circumstances a one-month notice period will be given and conditions relating to transitional funding found in [Appendix 5](#) will apply. The athlete shall have the right to appeal any such decision in accordance with the Appeals Procedure set out in [Appendix 2](#). Notwithstanding the standard timelines set out therein, revised timelines shall be determined on a case-by-case basis, ensuring fair and reasonable provision for all parties. For the avoidance of doubt, where an athlete's classification change is subject to appeal or contest with the International Classification Panel, the athlete may remain on the WCP pending a confirmed decision, subject to approval from the Selection Panel and UK Sport.

9. LA PARALYMPIC GAMES EVENT PROGRAMME

- 9.1. If an athlete's current event for which they are a member of the WCP does not feature on the LA 2028 Paralympic Games medal event programme they will be considered in alternative available events at the relevant time as decided by UK Athletics. They will be assessed against the Performance Requirements in section 12, 13, 14 and Selection Constraints in section 16, and may be retained on the WCP if the Selection Panel considers they have the ability to

successfully transfer to the new event with the potential to medal at future World Para Athletics Championships and Paralympic Games.

10. SELECTION CRITERIA – PERFORMANCE REQUIREMENTS

- 10.1. Athletes will be considered for selection based on the Performance Requirements set out in the relevant table. The WCP Selection Panel will decide in its discretion in which event group an athlete is considered for selection.
- 10.2. **The achievement of Performance Requirements does not automatically guarantee WCP membership.** The WCP Selection Panel comprises experts who have the discretion, based on their knowledge, expertise and experience within the sport, to select athletes who they consider have the greatest potential to meet the principles of the WCP.
- 10.3. The Selection Panel will use its expertise to determine the number and allocation of athlete places on programme.
- 10.4. Athletes may be offered membership at a lower WCP level than the specified WCP level/performance requirement achieved in competition. The athlete's profile will be considered as a whole, and it is the Panel's absolute discretion to offer membership at the level they feel most appropriate for the athlete's stage of development and performance profile.
- 10.5. Where the Performance Requirements refer to performance profiles, these are described in Section 15. An individual will be assessed for selection based on the expert view of the WCP Selection Panel following their review of the athlete's performance profile.

11. PERFORMANCE TABLES – GUIDANCE NOTES

Performance Tables are set out by categories as below:

INDIVIDUAL EVENTS go to [Section 12](#)

T54 MARATHON EVENTS go to [Section 13](#)

RELAY ATHLETES – go to [Section 14](#)

Each table is split as follows:

RETENTION – Performance Requirements information to be retained at the same level for 2025/26 current World Class Programme athletes.

PROGRAMME ENTRY – Performance Requirements for new athletes or Performance Requirements for 2025/26 World Class Programme athlete progression.

- 11.1. Athletes will only be considered for events confirmed within the LA 2028 Paralympic Games Medal Event Programme, as published by the IPC in June 2025. All references to events within this document relate exclusively to LA 2028 medal programme events and the eligible classes for each event.
- 11.2. Performances will only be considered where events are well represented, defined as a minimum of five athletes from at least three NPCs competing in the event. Where this standard is not met, performances will be assessed using a combination of performance relative to benchmark standards (time/distance) and the quality of opposition.
- 11.3. For the purposes of Podium B performance requirements, medals achieved at the 2025 World Para Athletics Championships in LA 2028 Paralympic Games Medal Events will be recognised as individual event medal performances, regardless of whether the event is a combined classification at the LA 2028 Games.
- 11.4. The bronze medal mark listed in Appendix 3 represents the highest bronze medal performance from either 2025 WPA Championships or 2024 Paralympic Games. **For new LA 2028 medal programme events (identified with an asterisk (*) in Appendix 3), the bronze medal mark refers to the 2025 WPA Championships only; where the event was not held at either Championships, no bronze medal mark is listed.** For Marathon events, the bronze medal mark refers to the Paris 2024 Paralympic Games only.
- 11.5. For combined event classes, world rankings will be calculated with all eligible classes for that event on the basis of time or distance respectively. See Appendix 4 for further details.
- 11.6. T11 & T12 marathon athletes must comply with the performance requirements in the individual event tables ([Section 12](#))

12. INDIVIDUAL EVENTS

- 12.1. In the absence of a 2026 European Para Athletics Championships, only athletes with a medal achieved at the 2025 World Para Athletics Championships, in events confirmed within the LA 2028 medal programme, will be considered for entry or progression to Podium tier for individual events.
- 12.2. Championship performances in Endurance Events use adjusted world ranking positions for performances at WPA-endorsed events, based on 2026 season's best performances. This is to reflect tactical race dynamics in these events. 'Endurance Events' refers to the 800m, 1500m and 5000m track events. For clarity, in Appendix 3 a dagger (†) denotes events where world ranking position is applied as the performance benchmark.
- 12.3. The 2026 World Rankings that are referenced in the tables below will be taken as of **9am Monday 9 November 2026**.

Note: all references to World Para Championships are the World Para Athletics Senior World Championships that take place outdoors.

14. RELAY EVENTS

- 14.1. A limited number of relay-only WCP places may be available following the selection of individual and marathon athletes. The WCP Selection Panel will decide in its entire discretion the number of places awarded for Relay Athletes. There is no obligation to select athletes for WCP Relay places.
- 14.2. WCP Relay places are only available at Podium Potential C level.
- 14.3. The Selection Panel will determine whether an athlete is nominated for the WCP as an Individual or Relay Athlete.
- 14.4. Athlete Relay membership is reviewed annually and does not guarantee continued membership. For any athlete who has previously been in receipt of Individual WCP membership, the WCP Selection Panel will consider their time on programme as a whole (to include time as an Individual WCP Athlete). For the avoidance of doubt, this does not mean there is a maximum of 4 years at Podium Potential level for Relay Athletes' memberships. Athletes' participation and contribution to the relay in the WCP year will be an assessment criterion for 2027/28 membership.
- 14.5. Nomination for WCP membership as a Relay Athlete will require those athletes to prioritise the relay event. WCP Relay programme athletes will be expected to fully commit to all relay programme activity and compete when reasonably requested by UK Athletics.

Athletes must have signed and adhered to the 2026 WCP Relay Plan. AND 3. Have previously been a member of a Strike 4 relay team at a major international championship (World Championships, Paralympic Games, or European Championships) since 2021. AND 4. Have a relay performance profile, supported by monitored relay performance data, that shows a clear current ability to positively contribute to a Strike 4 medal-winning relay team at the 2028 Paralympic Games.

15. PERFORMANCE PROFILES

- 15.1. Performance profiles use a combination of objective and subjective data measures along with performance insights to assess an athlete's potential to either continue to be a global medallist medalling at World Para Athletics Championships/Paralympic Games or to close the gap to global medal success. As part of this assessment, an athlete's performances and progress are evaluated against world-class standards within programme timelines using insights from analysis of past medallists' performance. Key elements include:
- Performance progression and gap to medal-winning standard at the 2028 Paralympic Games: An assessment of the potential to reach medal-winning performance levels by 2028 or 2032 Paralympic Games
 - Rate of improvement relative to known event trajectory and past Championship and Games medal performances
 - Recent athlete performance history in major international championships
 - Consistency of performance
 - Gap to medal contention at the 2028 Paralympic Games
 - Event trends
 - Coaching and training environment
 - Previous engagement with the WCP.
- 15.2. Relay athlete performance profiles use additional objective and subjective data and insight specific to relay performance. These profiles assess an athlete's current performance record against the standard required for success in major international championships and indicate the potential of their continued contribution to future medal-winning relay teams. Key elements include:
- **Relay speed** – individual performance contribution in both competitions and training
 - **Relay specific skills** – both objective and subjective data measures, including interactions between incoming and outgoing athletes
 - Engagement and commitment to the relay programme
 - Recent athlete performance history as part of the relay in major championships
 - Individual athlete's profiles may additionally be used to inform consideration for selection as a relay athlete.
- 15.3. The Panel may consider some or all of the key elements outlined above, and they may be weighted as necessary to best evaluate an athlete's potential against the aims of the WCP. The criteria are not listed in order of priority.
- 15.4. The expert view of the Selection Panel will be applied in evaluating world trends and the athlete's individual performance profile in making its decision.

16. SELECTION CONSIDERATIONS

- 16.1. Athletes who have previously received an award at Podium level will not be considered eligible for Podium Potential or Confirmation awards, other than in the circumstances detailed in paragraph 16.7 and 16.8 below.
- 16.2. 2026/27 LA Potential WCP level will be awarded together with a performance target that must be aligned to the Podium tier Performance Requirements in 2027.
- 16.3. Athletes who have previously received WCP investment at Podium Potential level will not be considered eligible for a Confirmation level award in the same individual event or classification.

- 16.4. Athletes will not be retained at Individual Podium Potential level for more than 4 years, unless exceptional circumstances exist either in accordance with paragraph 17 below OR only if they have been unable to progress to Podium this year due to no major Championships being held. In these cases, the athlete will need to demonstrate through their performance profile a strong trajectory towards medal success at the 2027 WPA Championships and beyond.
- 16.5. Athletes will not be retained at Confirmation level for more than 2 years, other than for the circumstances detailed in paragraph 16.7 or exceptional provisions in accordance with paragraph 17.
- 16.6. Athletes who were previous members of the WCP before the 2025/26 season and are not currently members of the WCP will only be considered for 2026/27 membership at or above the programme level they had achieved before their transition away from the WCP (other than for the circumstances detailed in paragraph 16.7).

ATHLETE CHANGE OF EVENT

- 16.7. In circumstances where an athlete has changed to a different LA 2028 medal programme event *or* their event classification has changed, the WCP Selection Panel may, in its discretion, nominate the athlete for World Class Programme membership at any level. In order to make an assessment, the Panel will consider the athlete's Performance Profile, the gap to medal in their new event and their ability to successfully transition to the new event.

For the purposes of this policy, a different event as referred to above means any event in which the athlete has not previously competed at a major international championship level (World Para Athletics Championships, Paralympic Games) since the beginning of the Paris Paralympic Games cycle.

There is no obligation on the Panel to nominate such athlete for 2026/27 WCP membership following such assessment.

- 16.8. Where an athlete has not met the criteria to be retained at Podium funding for an individual event, but they have been part of a medal winning relay team and can contribute to future medals within the relay, consideration may be made to nominate them for Podium Potential C level relay funding. Their continued ability to maximise the potential of the medal-winning relay team will be assessed on an annual basis. If the athlete is not demonstrating a performance profile capable of making a positive impact on a medal-winning team, they may not be selected for the WCP. The athlete's performance profile will be considered as a whole when making such assessments and it is the panel's absolute discretion as to whether membership to the WCP is offered.

PREGNANCY

- 16.9. Athletes who are pregnant and currently in receipt of APA funding will remain eligible to access their full APA for the duration of the pregnancy at the WCP level they were on at the time of becoming pregnant and for up to nine months post childbirth.
- 16.10. Continued access to the APA post childbirth will be dependent on:
 - a. The athlete's intention to return to the sport and the programme being discussed and confirmed no later than 6 months post childbirth.
 - b. At the point where the intention of the athlete is clear, forming a mutually agreed plan/timetable for return to training and competition. This plan should acknowledge the athlete's experience of pregnancy, the impact on them physically and mentally, and the nature of the event they are returning to.
 - c. Monitoring, reviewing and confirming that the athlete has made the necessary commitment to this plan and is on track to return.

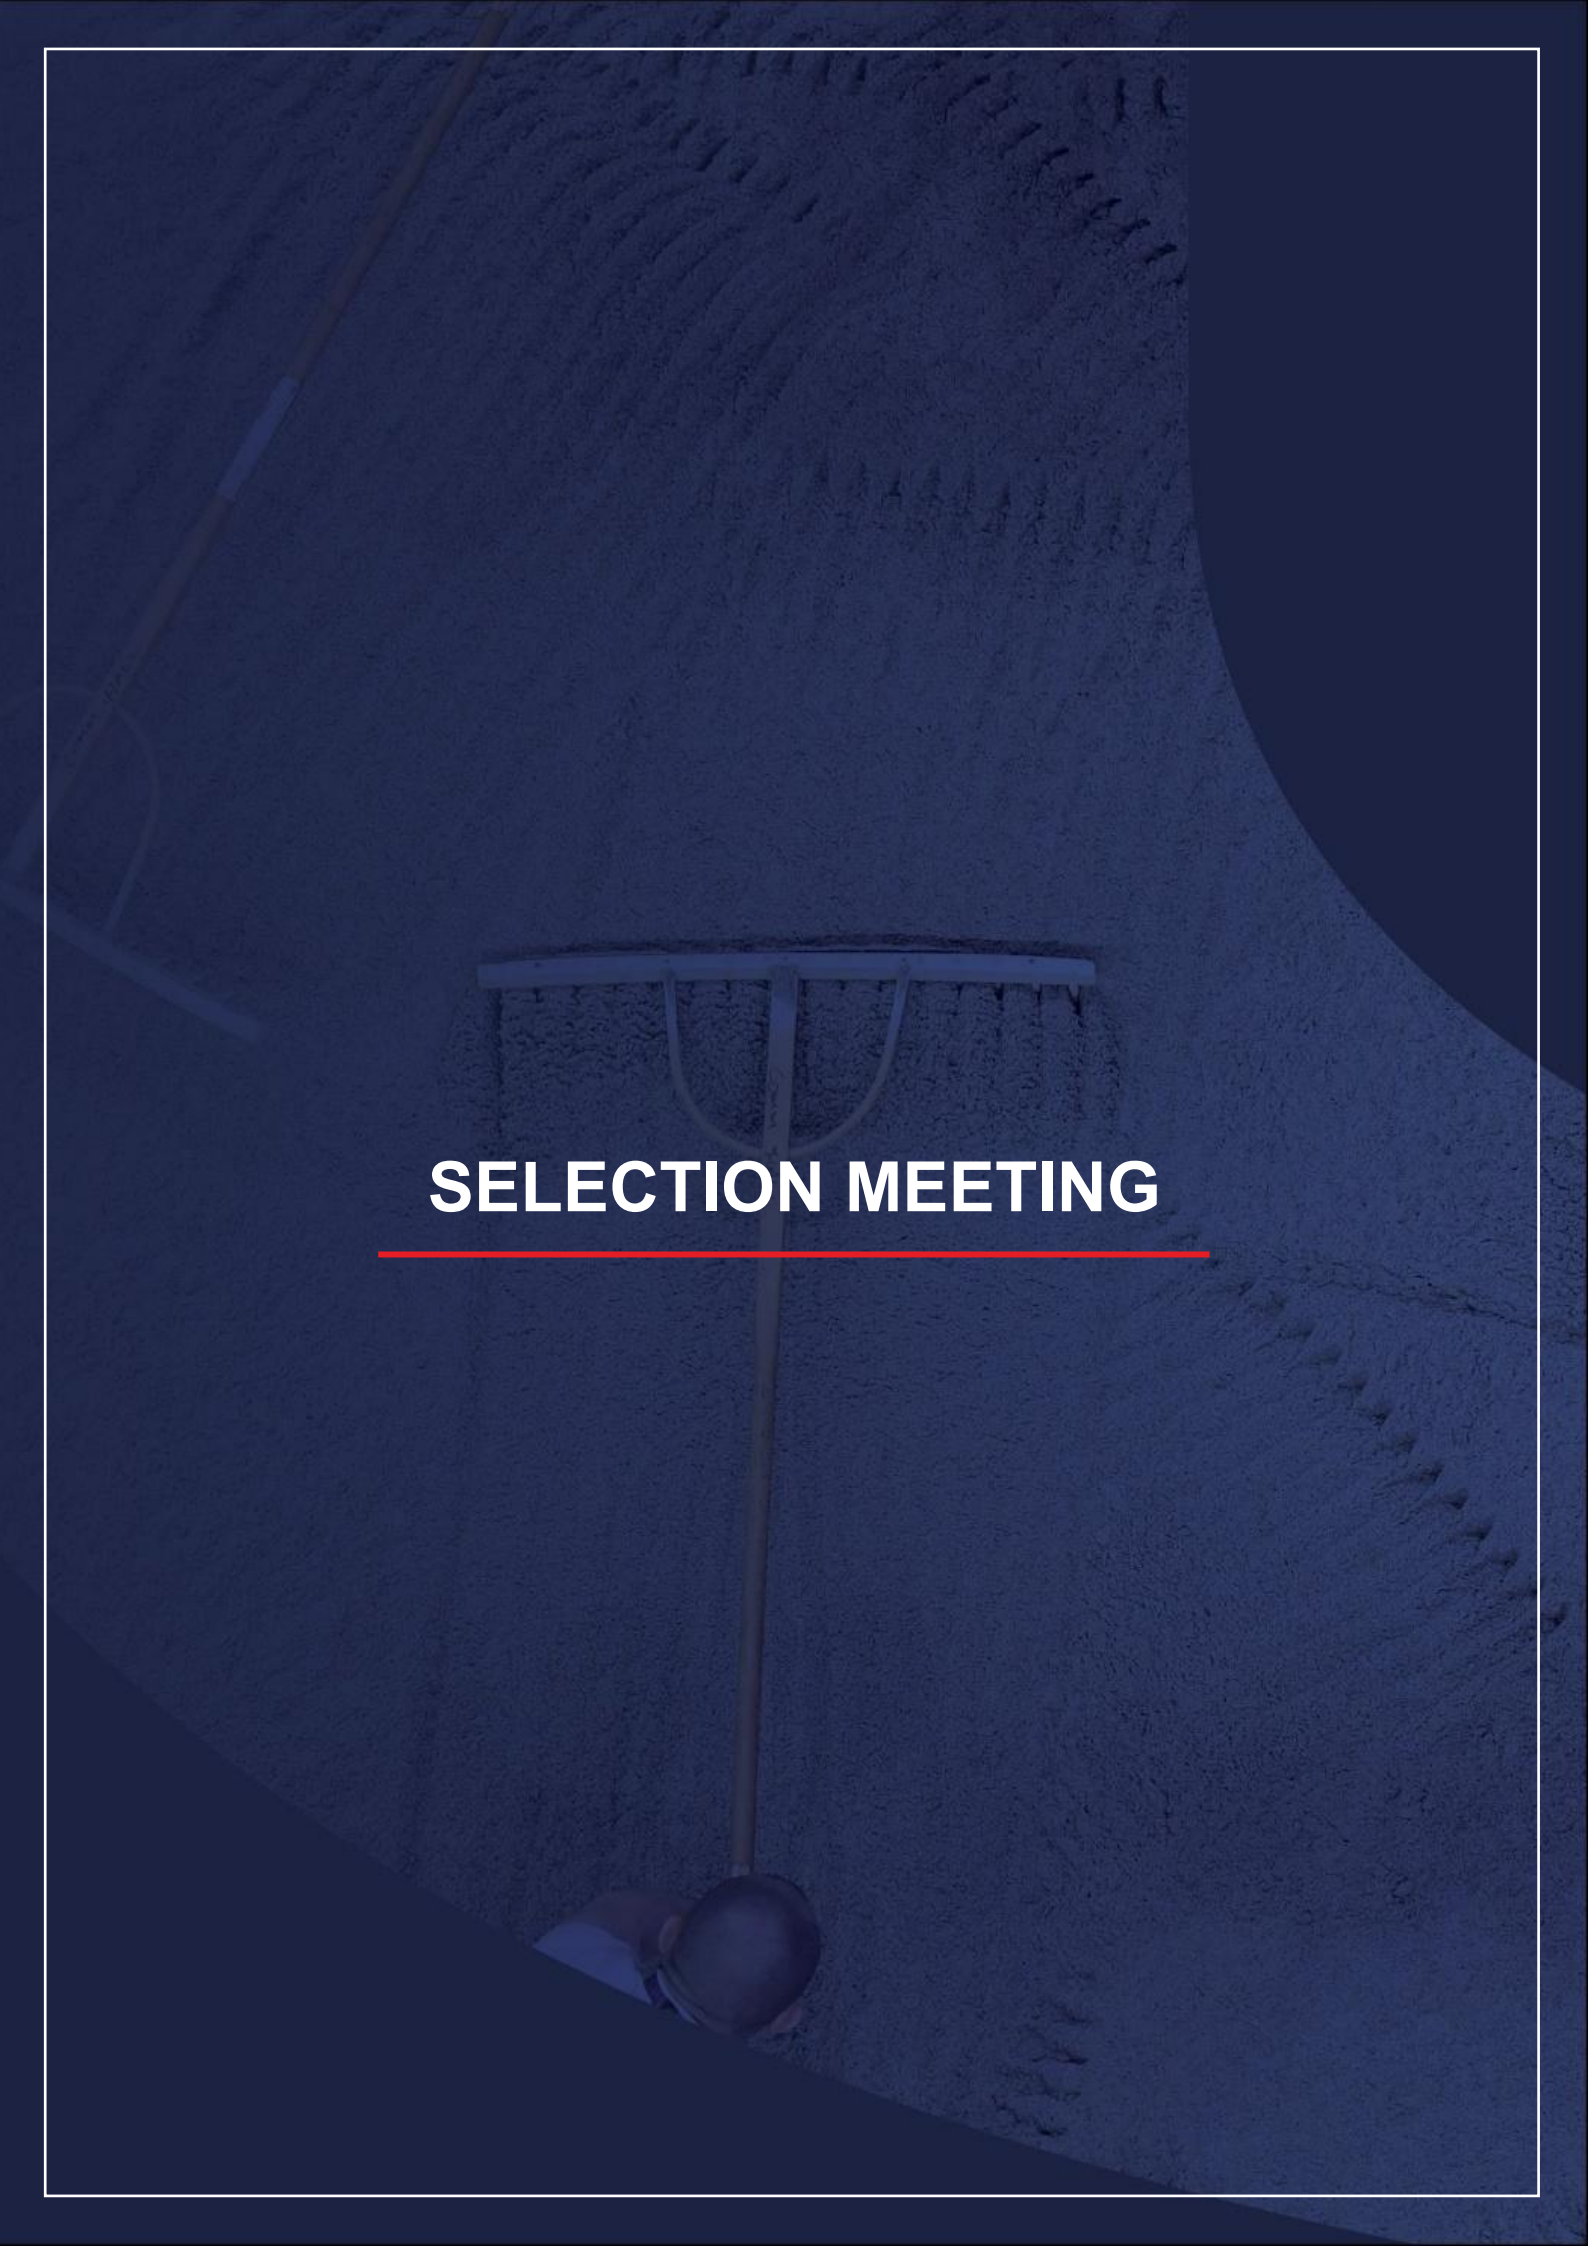

- 16.11. If the level of commitment and/or progress against this plan are not demonstrated following monitoring and review, the athlete will be given notice and offered a period of transition before the APA funding stops.
- 16.12. An athlete who announces their retirement during pregnancy or in the initial 6 months post childbirth, will not be given a further period of notice before the APA terminates.

PROGRAMME BREAKS

- 16.13. WCP-funded programme breaks are not available for the WCP 2026/27 year.

17. EXTENUATING CIRCUMSTANCES

- 17.1. Existing WCP athletes who are unable to satisfy the Performance Requirements in the selection process or have been unable to progress within the timelines due to significant injury/illness or other exceptional considerations in the current or previous year may be considered for continued WCP membership if:
 - a. The WCP Selection Panel has confidence that the athlete can close the potentially widened gap to medalling (notwithstanding the injury/illness) by the 2028 Paralympic Games. The WCP Selection Panel must be satisfied that the athlete can make the necessary progress to achieve medal success, despite the time lost to injury/illness. The assessment must account for the impact of the injury/illness on the athlete's performance level, acknowledging and addressing the gap to medal; and
 - b. The injury/illness history of the athlete indicates they can handle the necessary training and competition required to make the progress needed to have realistic potential to medal at the 2028 or 2032 Paralympic Games in accordance with the relevant performance requirements in section 12,13 and 14 above.
- 17.2. In order to be considered under paragraph 16.1, athletes must provide written details to the Head of Paralympic Performance (kjones@britishathletics.org.uk) with any relevant accompanying medical evidence to the Head of Therapy & Medicine (gpolglass@britishathletics.org.uk) **by 3 November 2026**. In its assessment of extenuating circumstances, the WCP Selection Panel will consider the following:
 - a. The prognosis of the injury/illness
 - b. The number, type and relationships of occurring injuries/illnesses in the 2025/26 year and previous years
 - c. The athlete's individual injury/illness history
 - d. The athlete's adherence to medical advice and their (own or support team's) willingness to share details on injury/illness (where athletes have not accessed the WCP medical team)
 - e. Nature and impact of other exceptional circumstances.
- 17.3. Athletes who are not currently on the WCP at the time of the selection meeting will not be eligible for consideration under extenuating circumstances as described above in paragraph 17.1.
- 17.4. There is no obligation for the WCP Selection Panel to retain an athlete for continued WCP membership under extenuating circumstances. Each individual case will be discussed during the Selection Meeting, and it will be at the Panel's discretion as to whether they consider the athlete to have the ability to return to a medal winning trajectory.
- 17.5. Athletes retained for the 2026/27 season on exceptional circumstance grounds will be subject to a mid-year review to assess progress towards returning to a performance profile commensurate with their funding level. Where an athlete is considered unlikely to return to that level, notice will be given and transitional funding will be applied in line with Appendix 5.

DE-SELECTION

21. INJURY / ILLNESS

- 21.1. In the event of injury/illness (both physical and mental), and in cases where an athlete is considered likely to recover to full fitness for training and competition, the athlete will continue to receive their full APA and WCP membership up to three months (or such shorter period ending on the final day of the 2026/27 WCP if the injury/illness occurs in the last three months of the WCP year) from the point the injury/illness occurred or was identified.
- 21.2. If after three months the athlete remains unavailable for full selection or training, an expert review will be undertaken to confirm the likelihood that the athlete remains able to pursue future medal success in the Paralympic Games.
- 21.3. Subject to satisfactory evidence of the likelihood of return, the APA will continue to be paid at the existing award level for up to a year but will only be extended beyond this in exceptional circumstances.
- 21.4. Where there is medical evidence that the injury/illness will affect the long-term potential of the athlete, or where the athlete has shown neither progress nor commitment to the agreed rehabilitation programme, the athlete can be removed from the WCP. In these circumstances a one-month notice period will be given and conditions relating to transitional funding will apply.

22. DISCIPLINARY ISSUES

- 22.1. In the event that an athlete:
 - a. Breaches the World Class Programme Athlete Agreement, or any other UKA Rules, Policy or Code of Conduct.
 - b. No longer satisfies the Eligibility Criteria.

UK Athletics may in its absolute discretion terminate or suspend the athlete's WCP membership (including APA payments). In relation to suspension, this will be until such time as the athlete remedies such breach to UKA's satisfaction or UKA otherwise deems it appropriate to end the suspension.

- 22.2. UK Athletics reserves the right, in its absolute discretion at any time to terminate an individual's WCP membership (including the right to an APA) immediately upon notice in writing (which shall include email).
- 22.3. For the avoidance of doubt, this provision permits termination by UK Athletics at any stage during the WCP year.
- 22.4. Additionally, if a relay athlete is in breach of the WCP Relay Agreement, UK Athletics reserves the right in its absolute discretion at any time to terminate that athlete's WCP membership (including APA) immediately upon notice in writing (which shall include email). Alternatively, the WCP may place the athlete on probation for a period of 3 months. If the athlete fails to demonstrate re-engagement with the Relay Plan in the Relay

Agreement during the probation period, the WCP may in its absolute discretion move the athlete to a lower WCP level or terminate the membership immediately.

23. LOSS OF PERFORMANCE

- 23.2. Before an athlete is removed from the WCP in accordance with paragraph 23.1 above, the Head of Paralympic Performance and Engagement Lead will meet with the athlete to discuss their concerns, and the athlete will be given a period of at least one month to show the necessary improvement.
- 23.3. If an athlete chooses to use external medical support, they must keep WCP medical staff regularly updated on their progress and injury/illness status. If they do not, or if the WCP considers the medical treatment is likely to have a detrimental impact on recovery, performance or health, following consultation with the athlete, the WCP may remove the athlete from the programme.
- 23.4. If in the unfortunate circumstance where an athlete has been classified as non-eligible in accordance with the World Para Athletics rules and regulations, their WCP membership will cease the conditions for which are provided in Section 8 and Appendix 5.

APPENDIX 4 – PERFORMANCE CONDITIONS

1. WPA ranking performances (domestic or overseas) must be achieved during competitions organised or approved by WPA.
2. For events in which more than one class is eligible, world rankings will be combined on the basis of time/distance only and will NOT be adjusted by point score. For example, in the women's F51/52 discus, the F51 and F52 world ranking will be combined, and ranked based on distance.
3. Performances not eligible for WPA world rankings must be achieved at competitions endorsed or approved by the WPA or UK Athletics to be considered for selection purposes. Domestic competition marks will only be recognised if they are achieved in UKA Level 2 Permit competition or higher.
4. Marathon qualification performances must be achieved in WPA approved marathons (a list of WPA approved marathons can be found on the WPA website).
5. Performances achieved in mixed events between male and female participants, held completely in a stadium, shall not normally be accepted. Exceptions to this rule may be made for field events or races of 5,000m or longer provided the stipulations outlined in WPA Athletics rule 4 (including notes) – World Athletics rule 141 – are satisfied. For the avoidance of doubt, where any mixed gender race is conducted so as to allow athletes of one gender to be paced/drafted/assisted by athletes of another gender, the results will not be permissible for selection purposes (regardless of whether they appear on the WPA World Rankings or not). Whether or not a mixed gender race has been conducted in such a way will be determined at the absolute discretion of the Panel.
